

PSG Solutions plc

AGM Statement

At the AGM held today all resolutions were passed.

The Chairman Jonathan Mervis stated:-

“Trading in the first four months of the year at PSG Franchising Limited has been encouraging given the widely reported drop in the level of property sale transactions. Downturn in traditional search has to a certain extent been countered by the introduction of Home Information Packs (HIPs) and the provision of Energy Performance Certificates (EPCs). Audiotel is performing well and Moore & Buckle is trading satisfactorily. “
